

Technical Specifications – Pepsi Exhibit Hall

Cox Business Convention Center's Pepsi Exhibit Hall is located on the street level of the southwest side of the facility. The Pepsi Exhibit Hall features column and structure-free, contiguous event space with ample power and utilities available. The flexibility of the venue allows it to work for almost any type of event from trade shows to concerts, general sessions, and even large galas.

Room Capacities

Room capacities listed herein are estimates based upon the space being set with no other equipment. Capacities will vary depending upon actual event set-up needs and fire code requirements. Please check with the Event Manager for questions regarding fire code requirements.

* 1,200amp 480volt service available upon request *		

Lighting Systems

Compact fluorescent and dimmable fluorescent light fixtures are spaced throughout the Pepsi Exhibit Halls to evenly cover the venue with bright lighting. All lighting is controllable by Cox Business Convention Center Technical Services staff remotely through an ETC control system and the wall panels in the room can be configured for client control.

There is a large stock of various lighting instruments available for rental as well. A full inventory list of rentable lighting equipment is available upon request by the Technical Services Manager.

Audio Systems

Each of the three Pepsi Exhibit Hall spaces can be equipped with a page microphone for announcements and can be configured for each individual space, combined for multiple rooms, or address the Main Gallery. The Pepsi Exhibit Hall control rooms each feature an Allen & Heath MixWizard 16:2, dbx processing equipment, Sony playback gear, and Clear-Com communications bases. XLR jacks are available on the Pepsi Exhibit Hall walls at the floor level and each space has a 12 point XLR patchbay at the catwalk level. A full inventory list of rentable audio equipment is available upon request by the Technical Services Manager.

Rigging

All events planning to rig in the Pepsi Exhibit Hall must provide a copy of their rigging plot to the Technical Services Manager no later than ten business days prior to the first contracted day of the event. The Technical Services Manager will be able to assist with planning and accommodating for event needs before issuing final approval of rigging plot. All rigging taking place at Cox Business Convention Center must be done in conjunction with either ASM Tulsa Technical Services staff or IATSE Local 354 riggers.

Technical Labor

Events may be required to hire in-house Technical Labor during their load in, event, and load out contingent upon a consultation with the Technical Services Manager. Rates and hours may vary depending on the needs of the event. All labor is subject to a four hour minimum per call and additional fees for overnight hours (between midnight and 8:00am). For see the Technical Services Manager for questions regarding Technical Labor.

For further questions about the technical offerings of the Pepsi Exhibit Hall, please contact the Technical Services Manager at (918) 894-4334.
